

LOST

My heart got lost in wilderness
Can't find its way back home
My heart kept beating just for you
Still beats the same way but for two

Don't understand what's going on
My heart won't tell, it's lost out there
The wilderness is all we share

My soul got lost in wilderness
Been hard on my heart's heels
Those two get closer step by step
And leave our future far behind

Don't understand what's going on
My soul won't tell, it's lost out there
The wilderness is all we share

My mind got lost in wilderness
I can't tell right from wrong
It dates those long forgotten dreams
Nothing remains just what it seems

Don't understand what's going on
My mind won't tell, it's lost out there
The wilderness is all we share
